**International Winter School
International and Comparative Studies for Master and
Doctoral Students in Adult Education and Lifelong Learning
February 4-15, 2019 (Würzburg, Germany)**

ON-CAMPUS PREPARATION

What is On-Campus Preparation?

On-Campus Preparation is a cycle of face-to-face meetings to foster the acquisition of basic knowledge and competences by Master's and Doctoral students.

Who can join?

The preparatory phase of the Winter School addresses both Master's Degree and PhD students who are going to attend the Winter School in February 2019 and aims at supporting them in understanding the goals of the Intensive Programme.

What is INTALL?

INTALL is an Erasmus+ project (2018-2021) which aims at creating bridges between education and the world of work to allow students to acquire work-relevant skills and knowledge. A blended-learning methodology and a portfolio approach will be adopted in order to make students and practitioners work together with teaching staff and pedagogical tutors in an international environment that will strengthen their employability in adult education and lifelong learning, through career guidance and employability-oriented tools.

Programme
