

Winter homework

- I. As we said in the last week of classes it is important to keep improving your English.
The first step is to revise all of the texts and pages in your dispensa.
All of the grammar and vocabulary exercises should also be revised.
Listening and speaking exercises are also necessary to continue to improve your English overall.
One of the best ways to improve your writing is to read... a lot!

Here is a link to a website all about reading:

- II. You must also write either an obituary or a text arguing for and against smart phones in schools. Please bring your written text to the first lesson.
