A histological slide showing a dense population of cells with purple nuclei and pink cytoplasm/extracellular matrix. The cells are arranged in irregular clusters and some show signs of atypia, consistent with a human tumor. The background is a light pinkish-purple hue.

PREPARATI ISTOLOGICI DI TUMORI UMANI

CORSO DI ONCOLOGIA

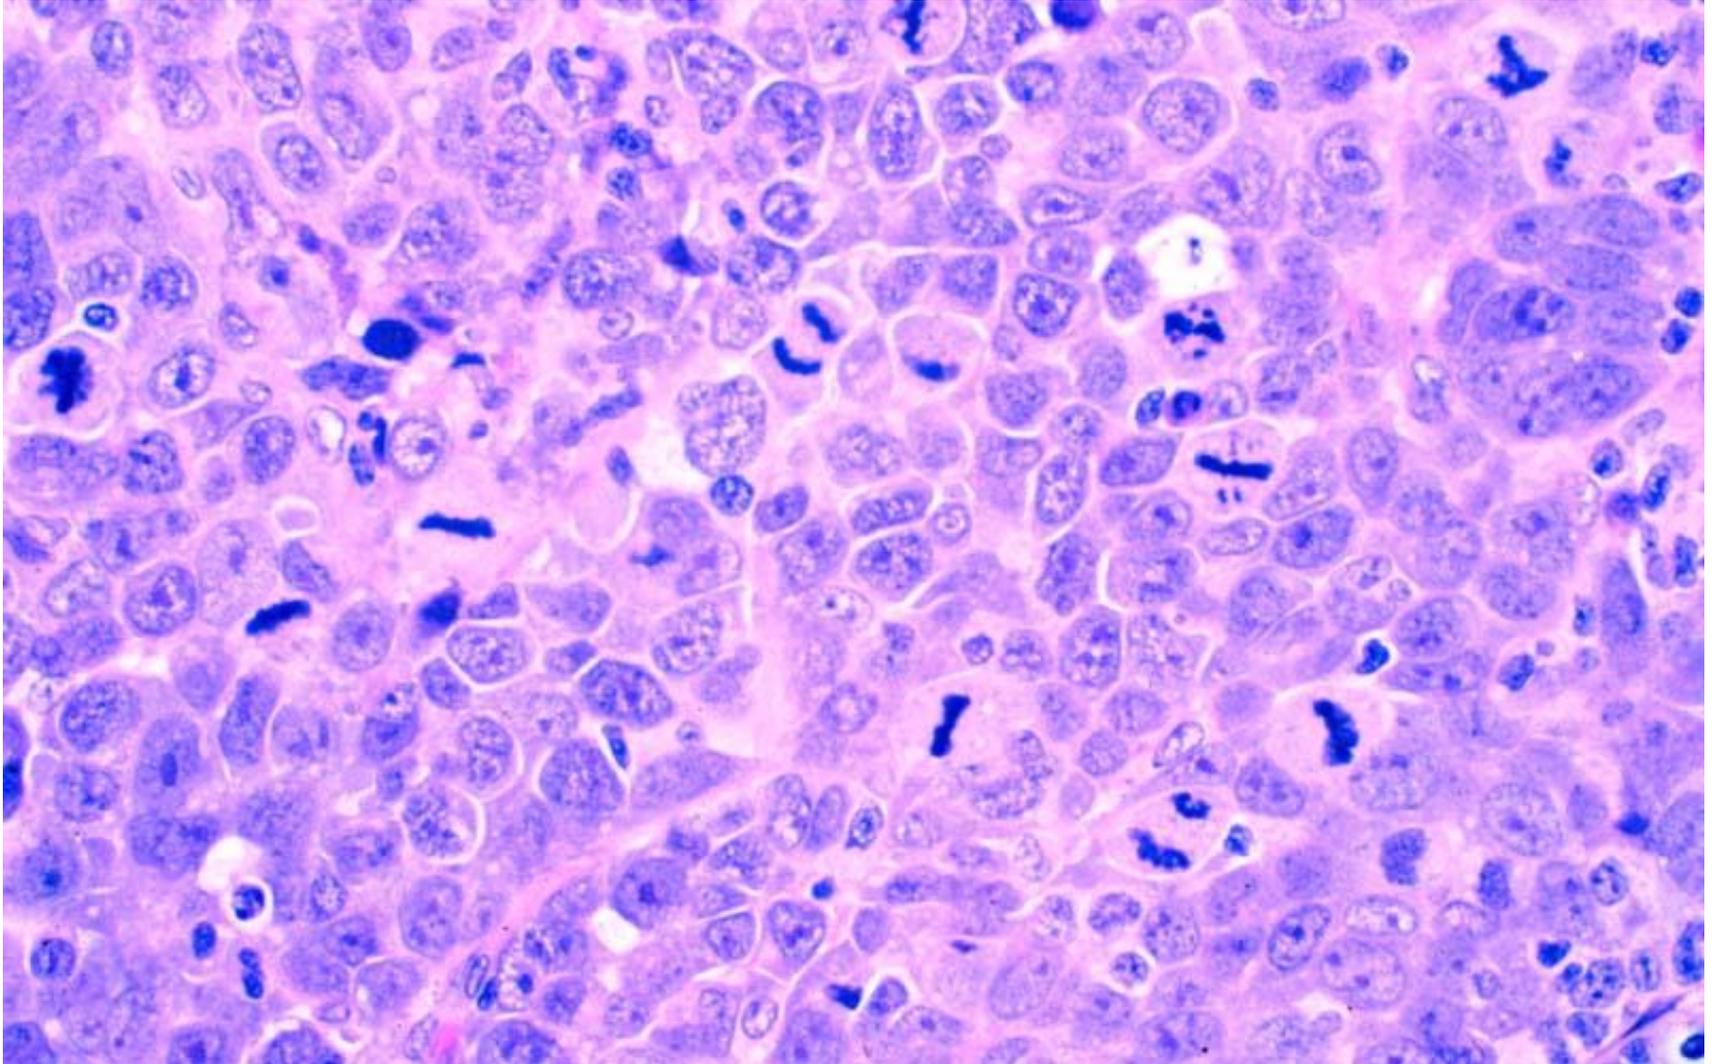

LEZIONE 7, 18 OTTOBRE 2019

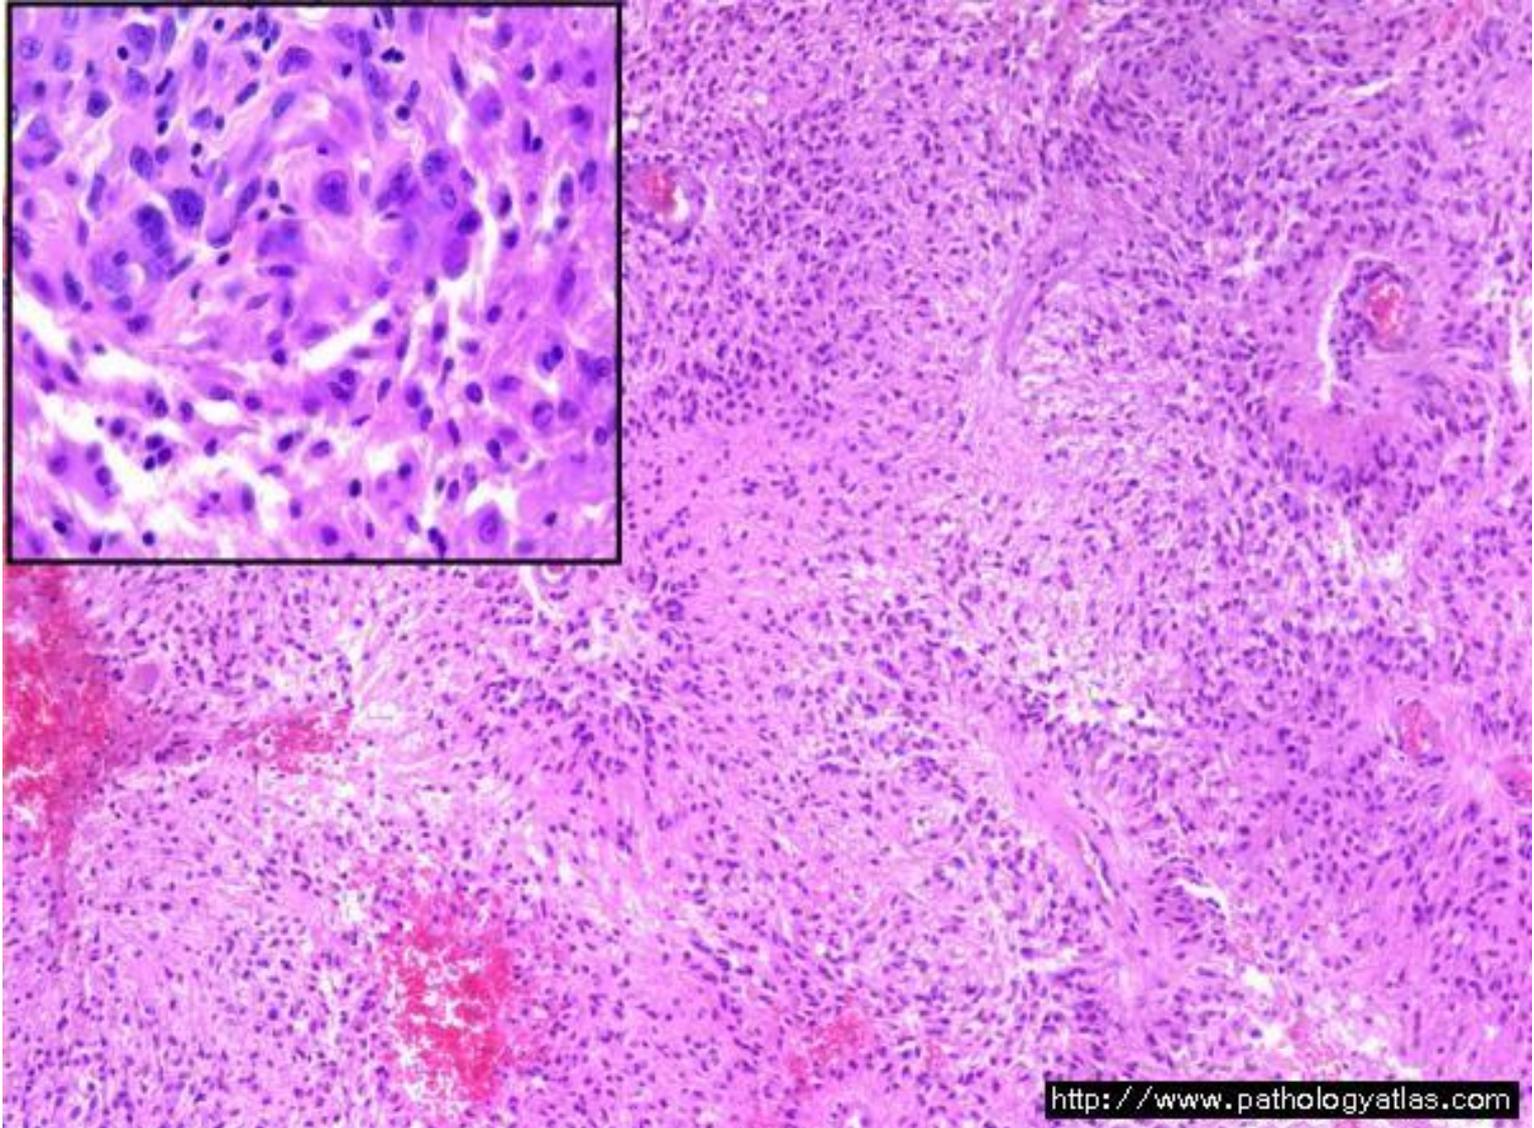

Cellule Tumorali

1. Rapporto N/C alterato
2. Atipie Citologiche
3. Morfologia alterata
4. Nuclei pleomorfi
5. Elevato numero di mitosi
6. Nucleoli numerosi ed evidenti
7. Disorganizzazione tissutale
8. Crescita incontrollata
9. Infiltrazione strutture circostanti
