

# The World Energy Transition Outlook IRENA 2021: an opportunity for Italian Scientists

*Friday July 16<sup>th</sup>, 10.30-12.00*

Zoom link: <https://unipd.zoom.us/j/87681495535>

10.30 Welcome address

**Prof. Rosario Rizzuto, Rector of the University of Padova**

10.35 Introduction

**Prof. Alberto Bertucco, Director of Levi Cases Centre for Energy Economics and Technology**

10.40 The World Energy Transition Outlook - 1,5° C pathway. IRENA 2021

**Dott. Francesco La Camera, General Director the International Renewable Energy Agency**

10.55 Transition policies: a socio-economic perspective

**Ms. Rabia Ferroukhi, Director of Knowledge, Policy and Finance, IRENA**

11.05 Decarbonising end-use sectors

**Mr. Ricardo Gorini, Innovation and Technology, IRENA**

11.15 The geopolitics of energy transition

**Ms Elizabeth Press, Director of Planning and Programme Support, IRENA**

11.25 Discussion

**Prof.ssa Paola Valbonesi, University of Padova, Levi Cases Centre and Italian Energy Poverty Observatory**

**Prof. Arturo Lorenzoni, University of Padova, Levi Cases Centre**

12.00 Conclusions

The International Renewable Energy Agency (IRENA) is an intergovernmental organization that supports countries in their transition to a sustainable energy future and serves as a leading platform for international cooperation, a center of excellence and a repository of policies, technologies, resources and financial resources knowledge on renewable energies.

With over 180 member countries, IRENA promotes renewable resources and technologies as the key to a sustainable future and helps countries reach their renewable energy potential. IRENA is based in Abu Dhabi.

Officially founded in Bonn, Germany, on January 26, 2009, but born from a commitment matured during the International Conference on Renewable Energy held in 2004, IRENA is today the most authoritative and accredited international institution in the study, analysis, support and cooperation regarding the Energy Transition.

**Its World Energy Transition Outlook is a world reference point for all those involved in the field of energy and climate policies.**

L'Agenzia Internazionale per le Energie Rinnovabili (IRENA) è un'organizzazione intergovernativa che supporta i paesi nella loro transizione verso un futuro energetico sostenibile e funge da piattaforma principale per la cooperazione internazionale, un centro di eccellenza e un archivio di politiche, tecnologie, risorse e risorse finanziarie conoscenze sulle energie rinnovabili.

Con oltre 180 paesi aderenti, IRENA promuove le risorse e le tecnologie rinnovabili come chiave per un futuro sostenibile e aiuta i paesi a raggiungere il loro potenziale di energia rinnovabile. IRENA ha sede ad Abu Dhabi.

Fondata ufficialmente a Bonn, in Germania, il 26 gennaio 2009, ma nata da un impegno maturato durante la Conferenza internazionale sulle Energie Rinnovabili tenutasi nel 2004, IRENA è oggi l'istituzione internazionale più autorevole e accreditata nello studio, analisi, supporto e cooperazione riguardo la Transizione Energetica.

Il suo *World Energy Transition Outlook* è punto di riferimento mondiale per tutti i soggetti impegnati nel campo delle politiche energetiche e climatiche.
